

Computer Science /

Web Design – Vocabulary

Name: _____

Per: _____

1. USING POWERPOINT, on your first slide, enter the following: Computer Science I – Web Design Vocabulary and your name.
2. Save your work on your flash drive as: XXX_WebVocab (XXX being your initials)
3. Create a separate slide (insert slide) on each of the “vocabulary words” below. Include the definition of the word (in your own words) and a clever graphical representation of the word. Select pictures which will help you remember the words meaning. Use the internet to look up the words below. (Remember to use multiple sites and not to get all your information from Wikipedia!!!)

4. Define the following words in the context of the Internet/Web. For acronyms, be sure to include what the acronym stands for in addition to the definition.

- | | |
|-----------------------------------|--|
| 1. Internet (also explain origin) | 12. Home Page |
| 2. WWW (also explain origin) | 13. Web Page/Website |
| 3. ARPANet | 14. Web Browser (list 3 browsers) |
| 4. HTML | 15. Search Engines (list 3 search engines) |
