## SMART Board 800 series interactive whiteboard

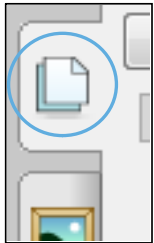

This file introduces you to some of the features of SMART Notebook 10.7 software.

Several features require an 800 series SMART Board interactive whiteboard. These features are marked with this icon. 

If you're using SMART Notebook software with a different SMART hardware product, visit [smarttech.com/us/Resources/Training](http://smarttech.com/us/Resources/Training) for additional resources related to your product.

# Pages

## See and sort your Pages

Use the Page Sorter tab to jump to a page by selecting its thumbnail, or reorganize your pages by dragging them into a different order.

## Add a Page

Press the **Add New Page** button.

# Write and draw

Pick up a pen and write

Press the **Pen Tray** button to change the pen colour.

The on-screen keyboard 800

Press the **Keyboard** button to launch the on-screen keyboard.

Right click 800

To make your next touch a right click, just press the **Right click** button on the pen tray.

# Write and draw

## Icon toolbar

The toolbar icons let you draw as well as create shapes, lines and text. Press the **Selection** icon to switch back to Select mode.

*Try some tools here*

*Try the new  
heart shape  
tool! ❤️*

## Write and draw

*just like this!*

### Calligraphic pen

This pen automatically smooths your writing or drawing. Connect your SMART hardware to use it.

### Use your handwriting

Select the drop-down menu from the written object. Press **Recognize** to transform your handwriting into text.

*Recognize Me*

# Objects

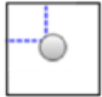

**Move, resize and rotate**  
Press the leaf and drag it to move it around the page.

**Resize and rotate**

To rotate, use the green handle.

To resize, use the white handle.

# Objects

## Object drop-down menu

Press a star and open the drop-down menu. From here, you can group and lock objects. You can also add sound or attach a link to an object.

## Properties

You can change an object's properties using the object's drop-down menu or the Properties tab.

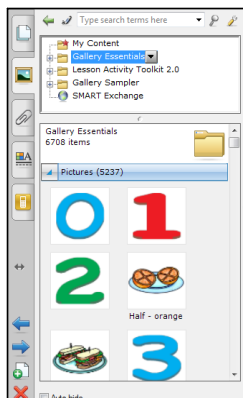

*Try changing the star's color*

# Gallery content

Find content in the Gallery

Find images, videos, sound files, interactive activities, backgrounds and SMART Notebook pages in the gallery. Just drag and drop to add to your page.

Add interactivity with the Lesson Activity Toolkit

The Gallery tab also contains templates to help you create your own activities. Engage your students with interaction.

# Using touch recognition

Press the video file to view the gesture.

Work more naturally 800

Use your finger, pen and palm or fist to switch naturally from writing to erasing.

Use the pen to write, your finger to drag, and your palm to erase.

Try it here →

# Working together

Press the video file to view the gesture.

## Collaborate more

Students can work together on the interactive whiteboard by writing, moving objects and interacting at the same time.

# Using object awareness 800

Press the video file to view the gesture.

**Work flexibly**

Want to use your finger to draw?  
Press a toolbar icon with your finger.

Love the pen? Press the pen to the  
toolbar icon to draw with it instead.

## Practice using object awareness 800

Press a toolbar icon with your finger and another icon with your pen and see what you can do.

*Try it here ↴*

### *Remember*

 To switch back to Select mode, press the **Selection** icon with your finger and put down the pen.

# Pages and gestures 800

Press the video file to view the gesture.

★ **Gesture tip**

To zoom, pan and swipe  
Press your fingers to an empty  
area of the page.

## Zoom and pan

Use two fingers to zoom or  
pan anywhere on the page.

Try it here →

# Pages and gestures 800

Press the video file to view the gesture.

## Swipe to navigate

Swipe one finger across the interactive whiteboard to move between pages.

# Object gestures 800

Press the video files to view the gestures.

Press two fingers on the leaf to rotate or resize it.

## Gestures

Use gestures to rotate and resize.

★ **Gesture tip**

To rotate and resize  
Begin with two fingers on the  
object.

# Object gestures

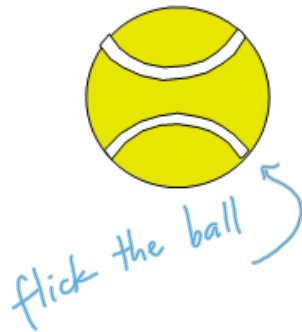

Press the video file to view the gesture.

**Flick**

Use gestures to flick objects.

Flick the object quickly with one finger to send it flying across the page.

# Tips and tricks

Press the video file to view the gesture.

More gestures [800](#)

Press one finger to the interactive whiteboard and tap the interactive whiteboard with another finger to right click.

*Try it here →*

To erase a large area, draw a circle around it using any eraser, then tap in the center of the circle.

★ **Gesture tip**

**To circle tap**

Use the eraser or your palm to draw the circle and to tap in the centre.

## Lockable pen option

Press the video file to view the gesture.

If you want to use your SMART Board interactive whiteboard with a sock, Koosh ball, tennis ball or pointer, turn on the **Lockable pen** option.

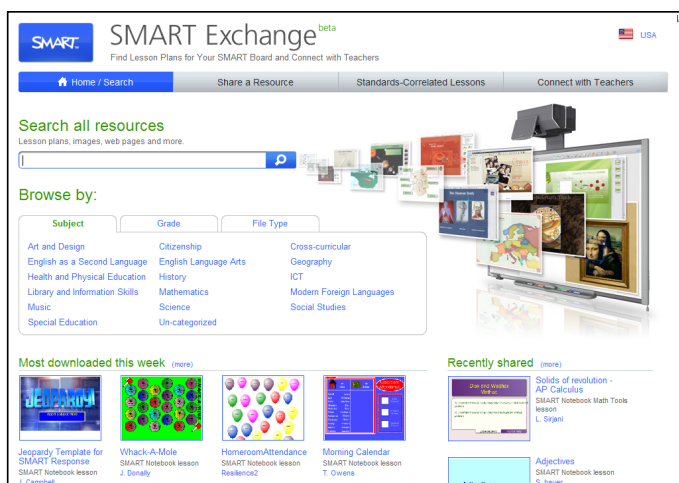

Press and hold a pen color button until it flashes. This locks the interactive whiteboard so any tool, not just your finger or pen, can be used with the board.

Press another pen color button to turn off the Lockable pen option and go back to using your pen, finger and palm.
