

Diorama - Book Report

What?

-Students read a book and build a diorama out of a box.

How?

1. Chose a chapter book and get it approved with your teacher.
2. Choose the diorama base: It can be anything – the traditional shoebox or tissue box.
3. Choose a background: The simplest background could simply be colored paper – green for grass, blue for sky, brown for earth, blue for water, etc. Or be creative with patterned papers or design your own by drawing on clouds, rocks, etc.
4. Make and place your characters into the setting. You can make characters out of paper, play dough or other household items. Get creative!

Share:

- Be prepared to discuss your project. Explaining what you did, how you did it, something you learned, and what you would do differently next time.

***Parent's role in these projects is to be a supervisor and facilitate help when absolutely necessary. We expect only kid work.**
