(518) 872-1482

January 6, 2012

Dear Parent/Guardian,

We are writing to inform you and your student about an opportunity to attend a weekly enrichment class in Physical Science. This focused enrichment class will target specific skills, approaches, and content needed to be successful on the NYS Grade 8 Science Exam in June. While we understand that this is a difficult course and exam, we feel strongly that every student at BKW can achieve success on this exam with hard work and dedication.

The weekly enrichment classes will be taught by the 8th Grade Science teachers at BKW on an alternating basis. Typically the enrichment class will be held on the Monday of each week from January 9th until May 21st, with the exception of Monday January 16th, this class will be held on Tuesday January 17th. The enrichment class will start promptly at 2:30 in the assigned room and students are expected to behave in a way consistent with daily classroom rules. Students must bring their review book (to be handed out), pencil, and calculator to each class.

Students who are performing below the proficiency level in Grade 8 Science are expected to attend this enrichment class.

Sincerely,

BKW Grade 8 Science Teacher

CC: Mr. McGurl, Secondary School Principal
